PROFESSIONAL SUMMARY

Full Stack Developer and 4th-year B.Sc. in Computer Science & Engineering student at Daffodil International University (CGPA 3.64). Builds responsive, data-driven web applications with React, Next.js and Node.js, and ships them to production. Natural team leader with a record of organizing university events and leading group projects, and a 7th-place finish in the AI DevFest 2026 Vibe Coding contest.

TECHNICAL SKILLS

Languages	HTML, CSS, JavaScript, TypeScript, Python
Frameworks & Libraries	React, Next.js, Node.js, Tailwind CSS, DaisyUI
Databases	PostgreSQL, SQLite, SQL (DBMS coursework)
Tools & Platforms	Git, GitHub, VS Code, Figma, Vercel
Concepts	Responsive design, REST API integration, authentication (email/password, Google and GitHub OAuth), state management

PROJECTS

Bazar-Dor: Daily Bazaar Price Tracker

Live Demo · GitHub

Next.js 16, React 19, TypeScript, Tailwind CSS, DaisyUI, Better Auth, PostgreSQL (Neon), Vercel

- Built a fully responsive Bangla web app showing daily prices of everyday essentials in Bangladesh, using live data from a public API with caching and fallback endpoints.
- Highlights the top price risers and fallers of the day and supports category browsing with sorting, loading skeletons and custom 404 pages.
- Implemented authentication (email/password, Google, GitHub) with protected pages that let users compare a product's price across 12 bazaars.

FitLog: Workout Library

Live Demo · GitHub

Next.js 14, React 18, TypeScript, Tailwind CSS, Context API, localStorage, REST API, Vercel

- Developed a dark-themed gym companion app with a workout library loaded from a REST API, search, and sorting by duration, calories and rating.
- Built a daily plan and saved-list feature that updates total exercises, minutes and calories in real time, persisted across reloads with localStorage.
- Created dynamic detail pages for every workout, plus loading states and a custom 404 page.

EDUCATION

B.Sc. in Computer Science & Engineering

2024 – 2027 (4th year)

Daffodil International University (DIU) | CGPA: 3.64

Relevant coursework: Computer Networks, Compiler Design, Database Management Systems, Software Engineering

Higher Secondary Certificate (HSC), Science

2022

Barachapa Union Adarsha Degree College | GPA: 5.00

Secondary School Certificate (SSC)

2020

Peerpur High School | GPA: 5.00

LEADERSHIP & ACTIVITIES

- **Team Lead, University Group Projects:** plan the work, divide tasks among members and coordinate delivery to keep the team on schedule.
- **Organizer, DIU Math Olympiad 2025 and 2026:** helped plan and run the event at Daffodil International University.
- **Volunteer, National Undergraduate Math Olympiad 2025:** supported the smooth running of a national-level competition.
- **7th Place, AI DevFest 2026 (Vibe Coding):** placed 7th in the solo AI-assisted coding contest at DIU.
